30 th June	End of term 3	

This week

This week in English we reflected on all of the things we have achieved and enjoyed this year. We discussed all of the major events in the school calendar and what we enjoyed the most. We identified areas of learning that were our strengths and areas that we can improve on in the next academic year. Having reflected on and discussed as a class, we drafted a written piece on our first year at Amity International School. We also completed some dictionary skills and punctuation work.

This week in Maths for some children we continued with the concept of time (Measures) on Quarter to and Quarter Past and times to the nearest 5 minutes. All of the children completed some interactive time challenges that they really enjoyed. We recapped on Area and Perimeter and learned how to find the area of an irregular shape. We also looked at different types of graphs to interpret data.

This week in Science we looked at 'Conductors' and 'Insulators'. We identified materials and objects that are effective conductors and insulators and the usefulness of both. We talked about how conductors allow electricity to pass through them and also how some types of water have properties that allow electricity to pass through. We also discussed the important role of insulators for our protection and safety.

Specialists
Music

We went to the auditorium this week to practice and record our Olympic song, so that we can send it to be mixed into the final edit in the USA! It is sung in a 3 part harmony and that's the first time we have done that, so it was challenging to concentrate on our own parts, but it sounded great so was worth the effort!

Arabic Non-Native

This week we learnt the difference between the pronouns (your, my, her and our). We used the command verb for masculine and feminine. We also revised the past & present verb, and used past tense for masculine & feminine. Next week we will learn answers to questions by using words in brackets. We will also discuss how to list in a table and the correct ways to say (verbs & nouns) with pronouns such as (I you, he, she, they talking about two). After that we will discuss pictures in the books and answer questions related to them. We will learn to write short *paragraphs*. (تعبير مصور).

Islamic Native – revision exercises

Islamic Non-Native

This week we learned to recite Surat –ul- Israa (Ayah 1-10). Next week we will learn the meaning of Ayat Surat –ul – Israa.

PE

This week in Grade 3 the children have continued to learn more gymnastics skills and develop their floor exercises and vaulting skills. They have learnt how to perform a basic hand stand and jump over the vault using the spring board. Well done Grade 3!

'Star of the Week'

Star of the week this week is for a girl who has been a fantastic representative of Grade 3 this term and sets a high standard and example to others. She has works consistently throughout Term 3 and has gone from strength to strength. This girl also quietly and helpfully supports others in their learning. Well done Hannah Mai for being such a good student!

The week ahead

Next week is the last week in Grade 3 for this group of students. We will take time to reflect on all that we have learned this term.

We will be Year 4 in training!

Reminders

Please ensure your child returns their reading Book, Reading Diary and Reading Folder as they are being taken in by the school.
Thank you.

Have a lovely weekend.

Miss Jenna
